Covenant Health Network

Applicable to: Mercy Care Long Term Care and Mercy Care DD

In order to support the emotional well-being of the SNF and Assisted Living workforce, Covenant Health Network (CHN) has designed a special workshop series tailored to senior living, funded by a generous grant by Mercy C.A.R.E.S.

Details

- **Comprehensive Emotional Health Workshops:** Three separate workshops for both frontline employees and managers, focusing on the unique needs and challenges of each group. Flexibility is offered in the number of sessions for frontline staff.
- **Developed by Experts:** The series will be facilitated by seasoned professionals with extensive experience in mental health and occupational health.
- **Practical Skills:** Beyond theory, your staff will learn actionable tools and information that can be applied both at the workplace and at home.
- **Convenience:** All hybrid (in-person and virtual) workshops will be hosted at your Community, ensuring minimal disruption to your operations.
- **FREE:** Thanks to a grant from Mercy Care, this series is offered at no charge to the facility or its participants. The primary goal is to support the emotional health of those on the frontline.
- **Honorarium:** To acknowledge your time, the facility will also receive a \$1,000 honorarium for participation.

Please email Cheryl Goodwin at cgoodwin@covenanthealthnetwork.org to express interest and/or to learn more about this offering.

Thanks for all you do!
